Coral and Micah Kirscher, DNP, FNP-C Renew Health and Wellness

Concerned about joint pain, excess weight or interested in medical anti-aging? Our practice, led by Drs. Coral and Micah Kirscher, DNP, FNP-C, blends traditional medicine with a holistic and natural approach to achieve better patient outcomes without surgery or toxic medications. We are proud to be a progressive healthcare solution for patients let down by traditional medicine.

Dr. Coral has 12 years of experience in traditional and holistic medicine. She has personally overcome an autoimmune disorder, giving her unique insight into women's complex health challenges.

Dr. Micah's passion for helping people started at 17 as a volunteer first responder in rural Wisconsin. After serving in the U.S. Coast Guard, he traded his flight suit for a white coat and began his medical journey, focused on regenerative care and men's health.

If you're looking for a proactive approach to healthcare that allows for unique and individualized programs delivering exceptional results, we would love to see you at Renew Health and Wellness.
