

# REMODELERS & CONTRACTORS

The Kitchen Whisperer is a professional kitchen design company that can help you and your clients manage the design, selections and ordering process. Because we work with your clients directly, we can save you a lot of time and help you manage your projects more efficiently.

Partnering with us will help your clients make decisions effectively and efficiently, adding a positive experience to your overall project process and implementation. We have decades of experience ordering materials, managing the details and getting the right product into the hands of your workforce. We partner with many local and national suppliers to get the things you'll need to complete every job. We not only create unique designs your client will love but we can provide you with custom, semi-custom or production level cabinets, counter-tops, plumbing and electrical fixtures designed for your specific job. Avoid bottlenecks and return trips in an environment of already unpredictable chains of daily events.

For more information please feel free to call or email. Let's see how we can help you
